Any person can make a counter representation in relation to a site specific representation. The purpose of a counter representation is to provide an opportunity to respond to proposed changes to the draft Plan Strategy as a result of representations submitted under the Planning (Local Development Plan) Regulations (Northern Ireland) 2015.

5. Please provide the reference number of the representation to which your counter representation relates to:

(if you wish to submit several counter representations relating to several separate representations we would encourage you to fill out separate forms, in order to keep your comments clear and concise.)

LA03-DPS-0118 – PUDSI

6. Please give reasons for your counter representation. You are advised that your counter representation should be based on the soundness test(s) identified in the above-referenced representation and the sustainability of the draft Plan Strategy.

Please note: Your counter representation must not propose any new changes of the draft Plan Strategy. Your counter representation should be submitted in full and cover succinctly all the information, evidence, and any supporting information necessary to support/justify your submission. This representation will be considered during the Independent Examination and there will be no further opportunity to submit information unless the Commissioner requests it.

Representation 4 relates to BIA SEL and it is put forward that SP 2.8 is unsound when considered against CE 1 and CE 2, as it permits "business" and "other complementary employment and service uses". It is suggested to make the policy sound that the text is amended to make it explicit that town centre uses would not be permitted at this location.

Representation 5 relates to DM 1 and again states it is unsound when considered against CE 1 and CE 2 again for the same reasons in that it would allow town centre uses to locate in SELs. It suggests the policy text should be amended to explicitly indicate that town centre uses are an appropriate and preferred location for office and call centre development.

We do not agree with the above assessment and would state that there is planning history relating to the airport for a varied mix of uses (set out in Annex 2 of our initial representation); all of which are seen as being essential to the future sustainable development and operations of the airport. We would view the town centre and employment policies presented within the DPS to be sufficiently robust to address the concerns of PUDSI with regard to protection of Town Centres.

BIA considers that the asserted reasons for unsoundness in the plan, points of objection and promotion of alternative policy raised by PUDSI are incorrect and misplaced.
