

RATHCOOLE COMMUNITY HUB & 3G PITCH PRE-APPLICATION COMMUNITY CONSULTATION

COMMUNITY ENGAGEMENT

Business Venture International Ltd (Venture) were commissioned to independently develop a business case for a proposed investment in a community facility in Rathcoole. The original focus for the business case was on redevelopment options for the Dunanney Centre. Based on initial analysis of activity in the Centre and consultation with a range of community and voluntary groups in the Rathcoole and wider area it was recognised that the Dunanney Centre did not offer the potential to meet these needs. It was agreed that given this the business case should focus on development options of the Council owned pavilion site.

To inform thinking on the proposed investment in a community facility consultation was undertaken from October 2019 to January 2020 through online, telephone and face to face engagement and a series of public consultation events were also held.

The business case was approved by Council in February 2022 and a Project Board, which includes Elected Members, relevant officers and professional design team has been established. The purpose of this event is to present the proposals to members of the public and provide you with an opportunity to give feedback on the scheme. Please take your time to peruse the presentation, ask questions to the design team and fill in the feedback sheets available. All responses will be recorded in line with GDPR guidelines.
