SECTION C - REPRESENTATIONS

Do you consider the draft Plan Strategy to be SOUND or UNSOUND?

I consider it to be 'Sound'

Sound Representation

If you consider the draft Plan Strategy to be SOUND and wish to support the document, please set out your comments below:

Sound Justification:

i) Paragraph Number: 10

ii) Policy Heading: Historic Environment – Enabling Development

■ Strategic Policy (SP) Paragraph Number: 7 / 10.62

■ Detailed Management Policy (DM) Paragraph Number: DM 35

iii) Page Number in Document: 228

We believe that Enabling Development is an important and necessary element as a mechanism to retain the rich industrial heritage that exists within the borough and are delighted to see it supported within this document.

We would suggest that the protection and refurbishment of a heritage asset, particularly if it is listed, should be considered sufficient public benefit to outweigh the departure from normal planning policy.

We would also welcome a more robust definition of “public benefit” and whether it can be objectively measured.
