COVID-19 TEMPORARY COLLECTION MEASURES

Bryson Recycling are trying to keep the service for the collection of recycling operating for as long as possible. **We need your help.**

In order to reduce the hand sorting of materials by our staff can you please temporarily sort your recycling materials in the following way:

If materials are not sorted in this way, containers will not be emptied.

Sorry, but we can't collect batteries, textiles or hand tools at this time.

Additional materials can be presented in old kerbside boxes. These must be sorted as described above.

Overflow bags will not be accepted at this time.

Help us protect our staff, your neighbours, and your family by taking the following steps:

- Please **wash hands before and after** leaving your recycling out and taking your Wheelie Box back in.
- Please **wash your hands before and after putting items** in your Wheelie Box.
- Please **disinfect the handles/flaps** of your Wheelie Box before and after putting out your recycling.
- If anyone in your house has symptoms of COVID-19, please **avoid putting boxes out for 72 hours** after the two week self-isolation period.
- **Do not put recycling out while you are self-isolating.**
- Boxes containing tissues will not be emptied. Please remove tissues and we will empty on your next collection day.

Thank you for your help and co-operation at this time.
