## **Risk assessment**

All employers must conduct a risk assessment.

We have started off the risk assessment for you by including a sample entry for a common hazard to illustrate what is expected (the sample entry is taken from an office-based business). Look at how this might apply to your business, continue by identifying the hazards that are the real priorities in your case and complete the table to suit.

You can print and save this template so you can easily review and update the information as and when required. You may find our example risk assessments a useful guide

## Company name:

## Date of risk assessment:

| What are the hazards? | Who might be harmed and how?  | What are you already doing?  | Do you need to do anything else to control this risk?  | Action by who?                                    | Action by when? | Done                            |
|-----------------------|---|--|--|---|-----------------|---------------------------------|
| Slips and trips       | Staff and visitors may be injured if they trip over objects or slip on spillages. | General good housekeeping is carried out. All areas well lit, including stairs. No trailing leads or cables. Staff keep work areas clear, eg no boxes left in walkways, deliveries stored immediately. | Better housekeeping in staff kitchen needed, eg on spills.  Arrange for loose carpet tile on second floor to be repaired/replaced. | All staff,<br>supervisor to<br>monitor<br>Manager | From now on     | xx/xx/xx<br>xx/xx/xx            |
|                       |   |  |  |   |                 |                                 |
|                       |   |  |  |   |                 |                                 |
|                       |   |  |  |   |                 | *Hint, tab here<br>for new row* |

You should review your risk assessment if you think it might no longer be valid (eg following an accident in the workplace or if there are any significant changes to hazards, such as new work equipment or work activities)
